

It's a shame that my FM Translator station might be a lower priority than the new LPFM stations. K-LOVE is an important part of mine and my family's life. We listen to it constantly, we are financial supporters of the station and cannot imagine not having it in our lives. It is the only station of it's type available to me and it does have value in our local community. In a world where it's sometimes hard to find good, K-LOVE offers only good stuff 24X7. I have 3 year old twin boys and I care about what they listen to now and will care even more as they get older! It would directly impact my family and numerous families in our community negatively if K-LOVE were no longer available. I believe the service provided by K-LOVE is of public interest as it affects the lives of many in such a positive way. Please do not allow this change to occur!
